

Technical Data Sheet

Viper Aerosol

Part # RT375A, 18oz (519g)

Overview: Viper is a potent degreasing compound that does not contain any hazardous ingredients or give off toxic fumes. Viper is excellent for cleaning small kitchen equipment, condenser and evaporator coils. Safe for all metals and OEM approved for use on aluminum micro-channel coils.

Application: The aerosol injector produces a pin spray of rich penetrating foam for reaching deep between the coil fins. The foam will liquefy and drain after a few minutes removing heavily imbedded grease and grime. Evaporator coils do not require a water rinse and condensers only require a light water rinse.

Chemical Description: Proprietary aqueous detergent/degreasing compound. Biodegradable and EPA Compliant. This product contains less than 8 g/l of VOC's as hydrocarbon propellant. Biodegradable and EPA compliant. Please refer to SDS for more information.

Properties: Viper is a non-toxic, non-flammable and non-odorous product. Suitable for use on evaporator and condenser coils, or use as a multipurpose cleaning and degreasing compound.

Certifications: NSF P1 registration number 120060 for use in food establishments. Kosher certified by OK Kosher. Non-Flammable as per Flame Extension Test.

Storage and Handling: Warning: Contents under pressure. Store away from heat, 120F (48C) or direct sunlight. Do not incinerate. Use in well ventilated areas. Use standard precautionary measures when handling any chemical. Rinse any affected areas with water. Soak up spills with adsorbent material and dispose according to Federal or State laws. KEEP OUT OF REACH OF CHILDREN.
