

THE ORIGINAL
BIG BLU
MICROLEAK
DETECTOR

Ultra-Sensitive Formula

Long Lasting Bubbles

1 U.S. Gallon (3.785 liters)

BENEFITS

Big Blu is the original micro leak detector known for its long lasting bubbles. This one of a kind elastic liquid easily clings to all surfaces. It is the only bubble leak detector capable of identifying leaks down to 0.65oz/yr. It is safe to use all gases including oxygen. Freeze protected to 32°F, non-corrosive, biodegradable, and NSF approved for use around food. Please see directions and visit our website for more information.

Manufactured by:

a Family Company Since 1987.

DIRECTIONS

Turn off or Disconnect all power from system.

Coat all surfaces with a flat liquid free of foam.

Tip: Focus on threaded connections, joints, and valves. Read our "Leak Detection Manual" online for more information.

Bubbles will form instantly for most leaks. Wait 5-30 minutes. Micro leaks will develop and appear as white foam cocoons or tiny bubble clusters. Place unit back into operation and check for vibration leaks.

Wipe or rinse off surfaces if water is available.

All done!

Part#RT100G

OUR STORY

Designed
by a service tech
for a service tech

"As a service technician for over 17 years, I combined my HVAC/R expertise with my chemistry background to develop a family of products that every technician will want on their truck. Refrigeration Technologies is the most trusted name for innovative products in the industry."

Thank you for purchasing!
